Hello, my name is Paisan Ingkavara. I worked at Sunny Syrup Studio for two years and had the opportunity to intern at Urnique Studio. I am interested in developing various tools to reduce repetitive tasks for the team, and in my spare time, I enjoy learning new things to continuously improve my skills for future growth.

WORK EXPERIENCES

Junior Game Developer, Sunny Syrup Studio

Mar 2023 - February 2025

I was tasked with game development and tool design for the team using Unity.

Spirit Mancer

- Optimized resource usage by developing a load-on-demand system and reducing loading delays through asynchronous loading, ensuring efficient game performance on PC, PlayStation, and Nintendo Switch
- Created tools like a cutscene creator, a build game tool, and a sprite manager to streamline the game development workflow
- Integrated various third-party systems into the project, such as Wwise for audio management and a localization system for multi-language support

[See here for more details](#)

Not Monday Cafe

- Led the development and design of a Grid-based game framework that dynamically adjusts and expands the game's content
- Developed an item creation system with modular sub-systems, allowing new features or mechanics to be added easily without modifying the core system
- Developed an animation system using the Sprite Library to simplify repetitive animation and created tools for building Sprite Libraries for in-game characters

Game Developer Intern, Urnique Studio

Mar 2023 - February 2025

game prototypes using Unity.

- Implemented gameplay mechanics inspired by Papers, Please
- developed the user interface based on designs created in Figma.

AWARDS

Place of Destination - Qualified for the final round of [Game Talent Showcase 2022 Presented by Bitkub](#)

- The game was developed by a team of four people, where I took on the roles of programmer and project lead
 - I was responsible for implementing all the systems within the game.
-

EDUCATION

Bangkok University (3.33)

School of Information Technology and Innovation Major in Games and Interactive Media
